

Rock Grilling

Your sliced meat or seafood will be delivered to your table with a 650° rock where you cook and season your entree to your liking.

Locally Sourced Babcock Pork

We are so excited that our family's pork is being served at Twigs. Babcock pork is superior in taste, quality, and Babcock's animals are never fed growth stimulants or hormones. Because our pork is naturally tender, it does not need tenderizing chemicals, only slow smoking and roasting. Additionally, we house our sows in what is called loose sow housing where they live in large groups and socialize with other sows as they move around freely.

OUR ROCKIN' RULES

- Meat, seafood, and vegetables can be cooked on the rock. Please refrain from putting black pepper, and sauces on the rock. They will burn. Please season and sauce food after it is cooked. Thanks!
- Hot rocking is like fondue without the oil. Use your tongs like a spatula to release your meat and seafood if it adheres to the rock.
 - Watch children carefully. Even when the rock cools down some, it is never cool enough to touch.
